

GLOBE

MACHINE MANUFACTURING COMPANY

20E Glue Spreader

Globe Glue Spreaders are owned by companies who demand quality and desire to obtain even and measured glue spread.

More than 800 are in service.

Globe Glue Spreaders have proven to be successful in spreading top, bottom, or both sides of veneer in varying thicknesses over rough peel and “thick and thin”.

The Globe Spreader is adaptable for use in any lay-up line and has reduced glue line costs and glue waste.
